

## Chattanooga Environmental Laboratory, LLC

www.chattalab.com

Tacy Medical has partnered with Chattanooga Environmental Laboratory to provide customers with microbiological testing options for USP797 compliance.

## **INSTRUCTIONS FOR PACKAGING AND SHIPPING TO CEL**

- A variety of TSA paddles, plates, or bags and shipping supplies are available from Tacy Medical.
- Prepare for shipping by placing media into a zip bag. Plates should be taped closed first.
- Complete CEL Chain of Custody (CoC). There are various CoC forms depending on media being used for GFT, aseptic manipulation, surface sampling, or air sampling.

• Place samples in an appropriately sized box. Recommended: insulated box with cold-pack (summer) or without cold-pack (cooler seasons) - available from Tacy Medical:

CEL.10X10 Corrugated Box w/Insulated Box Liner \$8.55

Corrugated Box w/Insulated Box Liner Cold Pack \$10.95

- Place CoC form inside box with samples.
- Fill excess space in box with shipping filler (not provided) to minimize shifting.
- Ship to CEL via your preferred carrier. Ground shipping will arrive at CEL within one to two days.
- Ship to:

Chattanooga Environmental Laboratory, LLC 402 Riverside Ave, Ste A Chattanooga, TN 37405 423.777.5220

A full report will be sent to the contact listed on the CoC, usually within 7 days of receipt of samples.
